

Liberate your workspace from oversize documents, engineering drawings and blueprints — hang them vertically with the DokuMount™. Now you can work comfortably, placing your documents where you need them, and move them out of the way when not in use. Our floating radial arm suspends the documents above your work surface. Quickly adjust height, position and angle with just one hand. The DokuMount™ is ideal for architects, engineers... anyone who needs to access and refer to paper copies while working at the computer. No more bending over a table cluttered with print-outs!

Features :

- Instantly grasps and releases up to 15 sheets of paper – no clips.
- Rotate to use as book holder.
- Conveniently move out of the way when not in use; can lay flat.
- Work ergonomically; no more straining to see both computer screen and printouts simultaneously – place both in your field of vision.
- Transparent – doesn't obscure your view of office.
- Can even be used as a flexible lectern.
- Extends up to 24", collapses to just 3".
- Includes FLEXmount™ with 6 mounting options, including desk clamp, thru-desk and wall.
- Choose from two sizes of platform :
18"/45.7cm x 24"/60.9cm (régular).
22"/55.8cm x 34"/86.3cm (large).
