

Multimedia Trackball Keyboard [ECKS980PMU]

The multimedia trackball keyboard offers you the best of both worlds. The soft and smooth surface of the keyboard offers an experience you never achieved before. The ergonomic design effectively minimizes any discomfort caused with long-term use of keyboard. The multimedia hot keys allow you to rapidly surf the wonderful world of websites and multimedia. You also have the flexibility of a trackball, with three buttons, integrated in the keyboard. You no longer need to extend your arm to use or move your mouse. Both, the ergonomic design and the user-friendly interfaces, give you marvelous leverage in your life.
