

## Standardized Mini Keyboard [EKBA83T5UB]

Finally a standardized mini-keyboard (answering to the standard of AC-NOR and OQLF). With this mini-keyboard, it is not only possible to generate all of the English and French characters with the characters most often used by means of a single key, but also, characters of 12 other languages based on the Latin alphabet (Spanish, German, Swedish, etc.). In a time of the globalization, here is an asset to further performance and excellence.

This Mini Keyboard has a very small format, similar to a laptop keyboard. It can be used for laptops or regular desktop computers. The narrow profile allows you to simply move the mouse closer to your neutral zone for ease of operation, thereby reducing the risk of RSI and other upper body problems.

#### key features :

- Rubber blanket membrane technology .
- Small measurements.
- Light weight.
- USB interface.

#### Technical Data :

##### Electronics

- Power supply: +5V/DC  $\pm$  10%.
- Current input: 100mA max.

##### Interface

- Single Type A USB.

##### Mechanical

- Number of Keys: 83.
- Key strokes life: 5 million cycles.

##### Other

- Storage temperature: -40° C to +60° C.
- Operating temperature: 0° C to +50° C.
- Operating humidity: 20% to 90%.
- Dimensions: 11.1 in x 5.2 in x 1.1 in (282 mm x 132 mm x 27 mm).
- Weight: 1.14 lbs (518 g).
