

## Keyboard tray with mobile mouse tray [EP711RL]

A new concept for an easy and proper adjustment. This kit consists of a 20" x 10<sup>3</sup>/<sub>4</sub>" keyboard tray and of a mobile mouse tray, both in solid laminate. You may position the mouse tray either to the right or to the left of the keyboard tray. Contrary to other keyboard trays with separate mouse tray, the mouse surface is not lower than the keyboard surface, but on the same plane, which allows for a more individualized ergonomic adjustment.

RIGHT-HANDED

LEFT-HANDED
