

The **ScrollSeal Washable Optical Mouse** use patented **SpillSeal®** Technology and has been tested to the international standards of IP66 and Nema4X. The **ScrollSeal Washable Optical Mouse** is a 3 button mouse and is the first washable mouse to incorporate a removable scroll wheel. It has smooth optical tracking, ergonomic design and features two standards buttons with a third one conveniently located in the centre. The innovative design of the mouse means that it can be easily washed/immersed and sterilized with most detergents and anti-bacterial agents. Every recess can be sterilized including the scroll wheel, which can be easily removed and simply clipped back into place once clean. The **ScrollSeal Washable Optical Mouse** fulfils the hygiene demands of many applications of Healthcare, Government, Education, and Financial institutions.

### What is NEMA4X ?

The NEMA4X rating (from the National Electrical Manufacturers Association) means this product is suitable for indoor and outdoor use and is protected against windblown dust, rain, splashing water, hose-directed water, and damage from external ice formation.

### What is IP66 ?

The IP66 rating (from the International Electrotechnical Commission) means this product is protected against the ingress of dust and high pressure water jets from any direction.

In more practical terms, the sealed product can be washed under running or sprayed water, as well as sprayed with disinfectants. They can also be submerged several inches under water, but due to pressure-related issues, we do not recommend submerging our products more than several inches.

### CODE :

- EUNOM10B1

### The Cleanliness You Want.

- **Washable by design.**  
Sealed structure let you wash and sterilize.
- **Easy to disinfect.**
