

Here the latest IntekView addition

Why a Keyboard Tray without a Copy Holder ? This Kit incorporates a Copy Holder to simplify your tasks and clear your desk. With this set easily adjustable, You'll have a more ergonomic position, and therefore avoiding physical problems such as RSI (Repetitive Stress Injury) or MSD (musculoskeletal disorder). An essential product for a perfect ergonomic workstation.

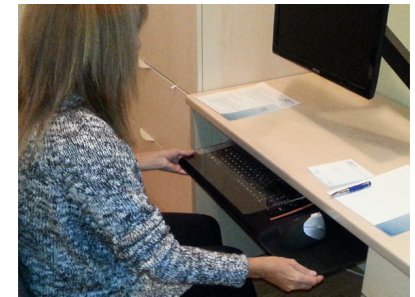

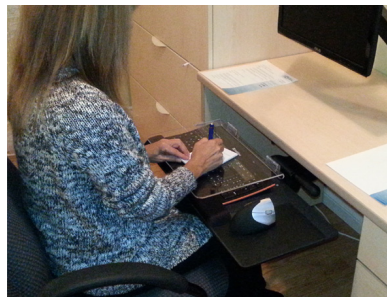

Advantages:

1. When desired, Copy Holder can be removed easily.
2. Close over your keyboard and it is easy to write note at ease the ergonomic ways.
3. Make the document in a perfect position to make entry in your system without repositioning your vertical view and see your monitor on top.
4. This system saves your desk from unnecessary tool and as space saver (no copy holder on your desk).
5. The copy holder closes on the keyboard and save it against dust and others accident that may occur.
